Ibanez JEM 7V Steve Vai electric guitar caricature

Another illustrated guitar caricature of Ibanez JEM 7V Steve Vai is finished. Since I have done a simple caricature of this Ibanez JEM guitar, I wanted to have it in this colored edition too. We all know that this is one of Steve Vai guitars that he often plays. I hope that guitar body of this Ibanez Jem 7V is not deformed too much. I am always trying not to deform guitar body too much, so that is easy to tell what kind of a guitar my caricature represent.
